Evaluator: _____   Campus: _____

To the Evaluator: Please read the student's dissertation carefully before evaluating it on the scale below. In making your judgment be sure to consider such factors as the skill with which the problem was formulated, the soundness of the research design, the nature and extent of data analyses, the integration of findings by means of theory and concept, etc. Attention should also be given to the way the dissertation is written and organized, taking into account the fact that the presentation and style should meet at least the minimum editorial demands of journal editors.

Please send the completed form as an email attachment to Basya Kasinitz, the APO of Academic Support and Student Progress (bkasinitz@gc.cuny.edu). Each committee member is required to submit an evaluation. Original signatures are NOT required. Students and/or faculty should submit at least 3 evaluations 4 weeks before the defense. Any remaining evaluations are due the day of the defense.

In the event that category "b" is checked, the evaluator should give the basis of his/her evaluation in the space allotted for "comments" below.

_____ a. I approve the student's written doctoral dissertation as it now stands, and recommend that she/he be given his/her Final Oral Examination.

_____ b. Except for minor revisions, I approve the student's written doctoral dissertation and recommend that he/she be given his/her Final Oral Examination. I assume that the candidate's committee chair will assume responsibility for these revisions.

_____ c. I do not approve the student's written doctoral dissertation as it now stands.
